**The English Language Entrance Examination program for foreign
applicants**

entering the English Media Medicine (EMD) of
Pavlov First St.Peterburg State Medical University of the Ministry of Health of
the Russian Federation

2025

English Language Program was designed to determine a level of English language proficiency prerequisite for admission to the University Medical Faculty (English Media). The program takes into account the requirements for foreign students who speak English on the level necessary for admission to universities in the Russian Federation.

Entrance examinations are conducted in the oral form. The exam tests English language skills in the following types of speech activity: reading, speaking, understanding, grammar.

In the entrance exam an applicant must demonstrate: skills in reading, understanding, rendering, answering questions to the text on basic sciences, understanding speech addressed to him, extracting factual information (subject, time, relationship, characteristics of objects, goals, reasons), taking part in

dialogues on proposed topics, expressing their attitude to the statements of the speakers, formulating own statements based on what they have read or listened in accordance with the norms of English.

The structure of examination paper and assessment criteria

The examination paper for the oral entrance exam contains 3 sections.

The first part is **reading**.

The applicant shall read the text. The assessment takes into account the applicant's reading (speed and pronunciation), understanding of the text content and vocabulary, the ability to adequately respond to the questions, rendering the text and extracting factual information from it, formulating own statements based on this text.

Evaluation Criteria

The maximum score for this task - to 40 points.

Reading (speed and pronunciation) – to 10 points

Understanding – to 10 points

Answering the questions– to 10 points

Rendering– to 10 points

The second part is speaking

When answering this question speech skills and monologue construction skills as well as dialogue skills and abilities are evaluated. The applicant must be able to understand the content of the other person's statements, identify their communicative intentions, respond properly to the remarks, and also be able to initiate a dialogue and express their communicative intentions on one of the proposed topics:

Acquaintance
About myself
My family
My country
Foreign languages study
My working day
My day off
Doctor- profession
Why I want to study in Russia
Weather
Education in my country
Man and his health
The capital of your country
Famous doctors you know

Evaluation Criteria

The maximum score for this task is 50 points.

The correspondence of the statement to the subject – to 10 points

The scope of the statement –to 10 points

Understanding examiner's questions -- to 10 points

Ability to initiate a dialogue - to 10 points

Speech without lexical and grammatical errors– to 10 points

The third part is **grammar**

The maximum score for this question is 10.

In the third question applicant is offered sentences that contain missing grammatical forms. His task is to restore the correct grammatical forms.

The maximum score for this question is 10.

2 points for each correct answer

Sample exam paper

Task 1. Read, render, answer the questions to the text.

The protozoans, minute, aquatic creatures each of which consists of a single cell of protoplasm, constitute a classification of the most primitive forms of animal life. They are fantastically diverse, but three major groups may be indentified on the basis of their motility. Have one or more long tails, which they use to project themselves forward.

Protozoans are considered animals because, unlike pigmented plants to which some protozoans are otherwise almost identical, they do not live on simple organic compounds. Their cell demonstrates all of the major characteristics of the cells of higher animals.

Many species of protozoans collect into colonies, physically connected to each other and respond uniformly to outside stimulate. Now almost 40,000 species of protozoas have been identified.

Where do protozoans probably live?

Why are protozoans classified as animals?

How many species of protozoans are known now?

Task 2. Talk about your native country. Answer the examiner's questions.

Task 3. Fill in the proper grammar form:

1. I _____ work at 9 o'clock every day

- a) will begin b) am begin c) begin to d) begin

2. The new hotel _____ next year.

- a) was built b) will built c) will be built d) will be builded

3. I'm late. _____?

- a) am I not b) aren't I c) am not I d) are I not

4. Many people think that Chinese is the world's _____ language.

- a) more hard b) harder c) hardest d) most hardest

5. Sorry, I'm late. How long _____ waiting?

- a) did you b) have you been c) are you d) have you

Examples of possible questions:

1. What is your name?
2. When were you born?
3. When did you graduate from high school?
4. Tell us about your native country, where are you from?
5. What language is spoken in Russia?
